

Technical Report For

# The Price and Purity of Illicit Drugs:

1981 Through the  
Second Quarter of 2003

NOVEMBER 2004

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF NATIONAL DRUG CONTROL POLICY

**Technical Report**  
**For the Price and Purity of Illicit Drugs:**  
**1981 Through the Second Quarter of 2003**

**Executive Office of the President**  
**Office of National Drug Control Policy**  
**Washington, D.C. 20503**

**November 2004**

## **Acknowledgements**

This publication was sponsored by the Executive Office of the President, Office of National Drug Control policy (ONDCP). Jeremy Arkes, Rosalie Liccardo Pacula, Susan Paddock, Jonathan P. Caulkins, and Peter Reuter produced this publication at RAND's Drug Policy Research Center and Public Safety and Justice Division under a contract to ONDCP under DHHS prime contract number 282-00-0016, Task Order number 8. Michael Cala served as Project Manager for this publication.

## TABLE OF CONTENTS

|  |     |
|--|-----|
| Tables .....   | iii |
| Figures .....  | iv  |
| I. Introduction .....  | 1   |
| II. Data .....   | 2   |
| Acquiring the STRIDE data .....  | 3   |
| Constructing the Sample .....  | 5   |
| Defining Key Variables.....  | 12  |
| III. Redefining Distribution Levels.....   | 14  |
| IV. Price and Purity Models.....   | 16  |
| Methodological Changes .....   | 16  |
| Price/Purity Model Specifications.....   | 17  |
| Marijuana Price Model Specification.....   | 21  |
| V. Empirical Results.....  | 22  |
| Purity Equation Results .....  | 22  |
| Price Equation Results.....  | 23  |
| VI. Constructing the National Price and Purity Indices .....   | 28  |
| VII. Accounting for Uncertainty .....  | 30  |
| VIII. Supplemental Analyses .....  | 33  |
| An Examination of Heroin, Salt-Undetermined .....  | 33  |
| The Influence of Observations From the Washington DC Metropolitan Police Force..                         | 33  |
| IX. Appendices   |     |
| A. Distribution of Observations in Terms of Weight in Grams.....   | A-1 |
| B. Evaluating The Functional Form of the Purity Models.....  | B-1 |
| C. Evaluating The Functional Form of the Price Models.....   | C-1 |
| D. Annual City-Specific Price and Purity Predictions Based on City Specific<br>Price/Purity Models ..... | D-1 |
| E. Weights Used in Construction of the National Price and Purity Indices .....                           | E-1 |
| F. Tables and Charts Related to the Assessment of Uncertainty in the Model.....                          | F-1 |
| G. Comparisons of the Main Heroin Models and Heroin, Salt-Undetermined....                               | G-1 |
| H. Impact of Excluding Washington D.C. Metropolitan Police Observations .....                            | H-1 |

## TABLES

|            |   |     |
|------------|---|-----|
| Table 1.   | Impact of Sample Restrictions on Number of Observations Included in Analysis .....  | 6   |
| Table 2.   | Criteria for Deleting Data Points by Drug .....   | 10  |
| Table 3.   | Market Quantity Levels by Drug for Price/Purity Model Sample .....  | 15  |
| Table 4.   | Selected Results From the First Stage Purity Regression .....   | 24  |
| Table 5.   | Selected Results from the Second Stage Price Regressions .....  | 25  |
| Table 6.   | Evaluation “Amount” in Grams for Each Quantity Level .....  | 27  |
| Table B.1. | Akaike Information Criterion Test Statistics Evaluating Goodness of Fit of Alternative Models for the Purity Equation .....                       | B-2 |
| Table B.2. | Covariance Estimates Generated for the Purity Equation From Our Primary Model, Including Random Slope Coefficients .....                          | B-3 |
| Table C.1. | Akaike Information Criterion Test Statistics Evaluating Goodness of Fit of Alternative Models for the Price Equation .....                        | C-2 |
| Table C.2. | Covariance Estimates Generated for the Price Equation From Our Primary Model, Including Random Slope Coefficients .....                           | C-3 |
| Table D.1. | Predicted Price Per Gram of Powder Cocaine, Lowest Quantity Level (Evaluated at 0.75 Grams) in Various Cities .....                               | D-2 |
| Table D.2. | Predicted Purity of Powder Cocaine, Lowest Quantity Level (Evaluated at 0.75 Grams) in Various Cities .....                                       | D-3 |
| Table D.3. | Predicted Price Per Gram of Crack Cocaine, Lowest Quantity Level (Evaluated at 0.3 Grams) in Various Cities .....                                 | D-4 |
| Table D.4. | Predicted Purity of Crack Cocaine, Lowest Quantity Level (Evaluated at 0.3 Grams) in Various Cities .....   | D-5 |
| Table D.5. | Predicted Price Per Gram of Heroin, Lowest Quantity Level (Evaluated at 0.4 Grams) in Various Cities .....  | D-6 |
| Table D.6. | Predicted Purity of Heroin, Lowest Quantity Level (Evaluated at 0.4 Grams) in Various Cities .....  | D-7 |
| Table D.7. | Predicted Price Per Gram of Methamphetamine, Middle Quantity Level (Evaluated at 27.5 Grams) in Various Cities .....                              | D-8 |
| Table D.8. | Predicted Purity of Methamphetamine, Middle Quantity Level (Evaluated at 27.5 Grams) in Various Cities .....                                      | D-9 |
| Table E.1. | Weights Used in Aggregation of City and Area Prices into National Price Indices .....   | E-2 |
| Table F.1. | Comparison of Key Regression Coefficients Using Bayesian and REML Methods to Estimate the Hierarchical Model Parameters in the Purity Model ..... | F-2 |
| Table F.2. | Comparison of Key Regression Coefficients Using Bayesian and REML Methods to Estimate the Hierarchical Model Parameters in the Price Model .....  | F-2 |

## FIGURES

|             |   |     |
|-------------|---|-----|
| Figure A.1. | Frequency of Powder Cocaine Purchase Observations by Weight, All Quantity Levels .....  | A-2 |
| Figure A.2. | Frequency of Powder Cocaine Purchase Observations by Weight, Amounts Less than 60 Grams.....  | A-2 |
| Figure A.3. | Frequency of Heroin Purchase Observations by Weight, All Quantity Levels .....  | A-3 |
| Figure A.4. | Frequency of Heroin Purchase Observations by Weight, Amounts Less than 200 Grams .....  | A-3 |
| Figure A.5. | Frequency of Heroin Purchase Observations by Weight, Amounts Less than 60 Grams .....   | A-4 |
| Figure A.6. | Frequency of D-Methamphetamine Purchase Observations by Weight, All Quantity Levels.....  | A-4 |
| Figure A.7. | Frequency of D-Methamphetamine Purchase Observations by Weight, Amounts Less than 60 Grams .....  | A-5 |
| Figure A.8. | Frequency of Marijuana Purchase Observations by Weight, All Quantity Levels .....   | A-5 |
| Figure A.9. | Frequency of Marijuana Purchase Observations by Weight, Amounts less than 500 Grams .....   | A-6 |
| Figure F.1  | 50 and 95 Percent Posterior Probability Intervals of the National Price Index for Heroin Quantity Level 1, Employing Bayesian Model.....  | F-3 |
| Figure F.2  | 50 and 95 Percent Posterior Probability Intervals of the National Price Index for Powder Cocaine Quantity Level 1, Employing Bayesian Model.....                                    | F-4 |
| Figure G.1. | Heroin Price Per Pure Gram in 2002 Dollars.....   | G-2 |
| Figure G.2. | Heroin-Salt-Undetermined Price Per Pure Gram in 2002 Dollars.....   | G-2 |
| Figure G.3. | Heroin Purity.....  | G-3 |
| Figure G.4. | Heroin, Salt-Undetermined Purity .....  | G-3 |
| Figure H.1. | Powder Cocaine Price Per Pure Gram, First Quantity Level (Amount $\leq$ 2 Grams), With and Without DC Metropolitan Police Transactions .....  | H-2 |
| Figure H.2. | Powder Cocaine Purity, First Quantity Level (Amount $\leq$ 2 grams), With and Without DC Metropolitan Police Transactions.....  | H-2 |
| Figure H.3. | Crack Cocaine Price Per Pure Gram, First Quantity Level (Amount $\leq$ 1 Gram), With and Without DC Metropolitan Police Transactions .....  | H-3 |
| Figure H.4. | Crack Cocaine Purity, First Quantity Level (Amount $\leq$ 1 Gram), With and Without DC Metropolitan Police Transactions.....  | H-3 |
| Figure H.5. | Heroin Price Per Pure Gram, First Quantity Level (Amount $\leq$ 1 Gram), With and Without DC Metropolitan Police Transactions.....  | H-4 |
| Figure H.6. | Heroin Purity, First Quantity Level (Amount $\leq$ 1 Gram), With and Without DC Metropolitan Police Transactions.....   | H-4 |
| Figure H.7. | Marijuana Price Per Gram, First (Amount $\leq$ 10 Grams) and Second Quantity Levels (10 $\leq$ Amount $\leq$ 100 Grams), With and Without DC Metropolitan Police Transactions ..... | H-5 |
